

THE THEME

Kacy and Kirk wanted to embody the native backdrop as part of their theme, fusing warm and casual with rustic charm. Lush white flowers in jars and urns accompanied by an abundance of candles were pleasing additions to the picturesque venue. To emphasize the natural setting, white and neutral tones were the couple's choice - from table-runners, napkins, to the draping curtains at the entrance of the barn.

THE ATTIRE

Kacy looked elegantly radiant in her strapless scrunched organza and charmeuse gown with a one shouldered floral detail by Augusta Jones. Kirk was smartly suited up in Hugo Boss.

THE CAKE

To remain within the rustic theme, the baker found inspiration from 'Paxton & Whitfield's' in London that flourished into a beautiful five tiered cake made from rounds of cheese.

THE FOOD

Guests were served with a satisfying local fare ranging from land to sea - oysters with vodka, ahi and shellfish during cocktail hours and hearst ranch beef and halibut for reception dinner.

THE GIFTS

In keeping with the theme of rustic country, the thoughtful couple gave guests a petite bottle of olive oil and a horseshoe - as symbols of good health and good luck. **sw**
